

## JANUARY 2020

## MSCL House Celebrates YOU!

Because YOU are the reason for our many successes in 2019.  
YOU ... our devoted friends, generous supporters,  
and invaluable volunteers!

### YOU are the reason that MSCL House ...

- Successfully launched last year as the first all-male sober home in the Wood River Valley.
- Provides a completely safe and sober living environment for men in recovery.
- Offers resources and assistance for residents' continued education and employment.
- Supports our residents' transition from rehabilitation to independent living as productive, sober individuals.

### YOU are the reason that MSCL House residents are ...

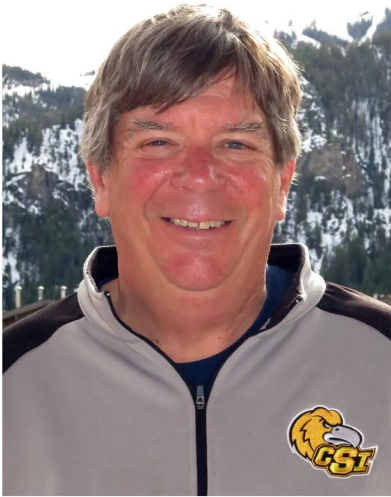

- Learning to build a life centered around healthy activities.
- Developing integrity, good character, and self-awareness.
- Maintaining their sobriety and personal wellness.
- Finding meaning in life and accepting that they are valued in the world.
- Restoring personal relationships and re-engaging with the community.
- Contributing daily through full-time employment and community service.

### And if YOU don't believe us, look at what our residents are achieving ...

- D attended his daughter's high school graduation last June.
- M applied for—and received—several scholarships to continue his education this spring.
- MSCL House “graduate” Z reconnected with his family and took his 8-year old son to school for the first time.
- The current 8 residents of MSCL House are working 12 jobs between them and making meaningful contributions to the community.

None of this would be possible without YOU.  
All of us at MSCL House appreciate YOU so much.

**Here's to a New Year ...  
and a new reason to be YOU!**

### Meet our man in the trenches, MSCL House Manager John Inman

A ski adventure brought John to the Wood River Valley in the late 1970s. After 40 years, you might say he's a local. John personally understands the work involved in climbing out of the trenches of addiction, and his own experiences fueled a desire to help others. He worked tirelessly for years to facilitate AA meetings at the jail, completed the addiction studies program at CSI, and is currently pursuing a bachelor's degree in social work at BSU. He stands by the men at MSCL House, gently guiding them and showing them compassion, and is there for them at the most difficult times and the best of times. In addition to his work with MSCL House, John serves on Idaho's South Central Behavioral Health Board as the Substance Use Disorder advocate, volunteers with the Crisis Hotline, and is involved in youth activities with his 13-year old son. With his breadth of knowledge and experience in the field, he is a true asset to MSCL House and its residents. There is no better person to guide them out of the trenches toward recovery.

*Because every day is a second  
chance to change a life!*
