St. Luke’s Community Health Improvement Fund Supports MSCL House 2022

Hailey, ID – Jan. 7, 2022 – Men’s Second Chance Living (MSCL House) has been awarded a St. Luke’s Community Health Improvement Fund grant toward programs for the fiscal year 2022.

MSCL House opened in 2018 with a mission to help men living with addiction succeed in their recovery. Since its inception, the organization has served more than 45 men and is recognized by partners and the community as a program of excellence. Programs offered by MSCL House include safe and sober living; medical, dental and behavioral health care; nutrition assistance; gym memberships; financial education classes and Matched Savings accounts; and funding for higher education. MSCL House could not do this work without the generosity of the community and support from organizations like St. Luke’s. MSCL House is grateful to have St. Luke’s as a partner supporting MSCL House to serve the Wood River Valley.

About Men’s Second Chance Living: Sonya Wilander and community members and friends started Men’s Second Chance Living in November 2018. MSCL House has grown its reputation over the years as an organization providing exceptional sober living and supplemental programs that support residents in achieving sobriety. Since its inception, MSCL House has served more than 45 men in early recovery from substance use disorder, nearing 7,000 sober nights.
